Professional Summary

B.Tech Information Technology student with hands-on experience building full-stack web applications using React, Next.js, Node.js, Express.js, PostgreSQL, and MongoDB. Strong interest in backend engineering, scalable systems, and real-time applications. Built production-style projects involving WebSockets, OIDC authentication, and live feedback systems while consistently publishing technical blogs focused on modern web development.

Education

Government Engineering College Ajmer, Rajasthan

Bachelor of Technology (B.Tech) — Information Technology

Expected Graduation: 2028

CGPA: 7.8/10

Technical Skills

Languages: JavaScript, TypeScript, HTML, CSS

Frontend: React.js, Next.js, Tailwind CSS

Backend: Node.js, Express.js

Databases: PostgreSQL, MongoDB

Mobile: React Native

Concepts: REST APIs, Authentication, WebSockets, Real-Time Systems

Tools: Git, GitHub, VS Code

Projects

One Million Checkboxes

Tech Stack: React.js, Node.js, Express.js, WebSockets, OIDC Authentication

Live Demo: <https://one-million-checkboxes-50bp.onrender.com/>

- Built a real-time collaborative application enabling simultaneous multi-user interaction using WebSockets.
- Implemented OIDC-based authentication and real-time state synchronization across connected users.
- Developed scalable backend communication handling live updates efficiently.
- Designed responsive frontend architecture for smooth user interaction and performance.

Real-Time Poll & Feedback Platform

Tech Stack: React.js, Express.js, Node.js

Live Demo: <https://poll-app-frontend-chi.vercel.app/>

- Developed a live polling and feedback platform with real-time response updates.
- Implemented dynamic frontend rendering and backend event handling for instant feedback delivery.
- Built REST API architecture for managing polls, responses, and real-time interactions.
- Created responsive UI for seamless usage across desktop and mobile devices.

Blogs & Technical Writing

- Published 50+ technical blogs in the last 6 months on web development and modern JavaScript technologies.
- Regularly write about React, Next.js, backend systems, authentication, APIs, and full-stack development.
- Hashnode Profile: <https://hustlecoderankur.hashnode.dev>
